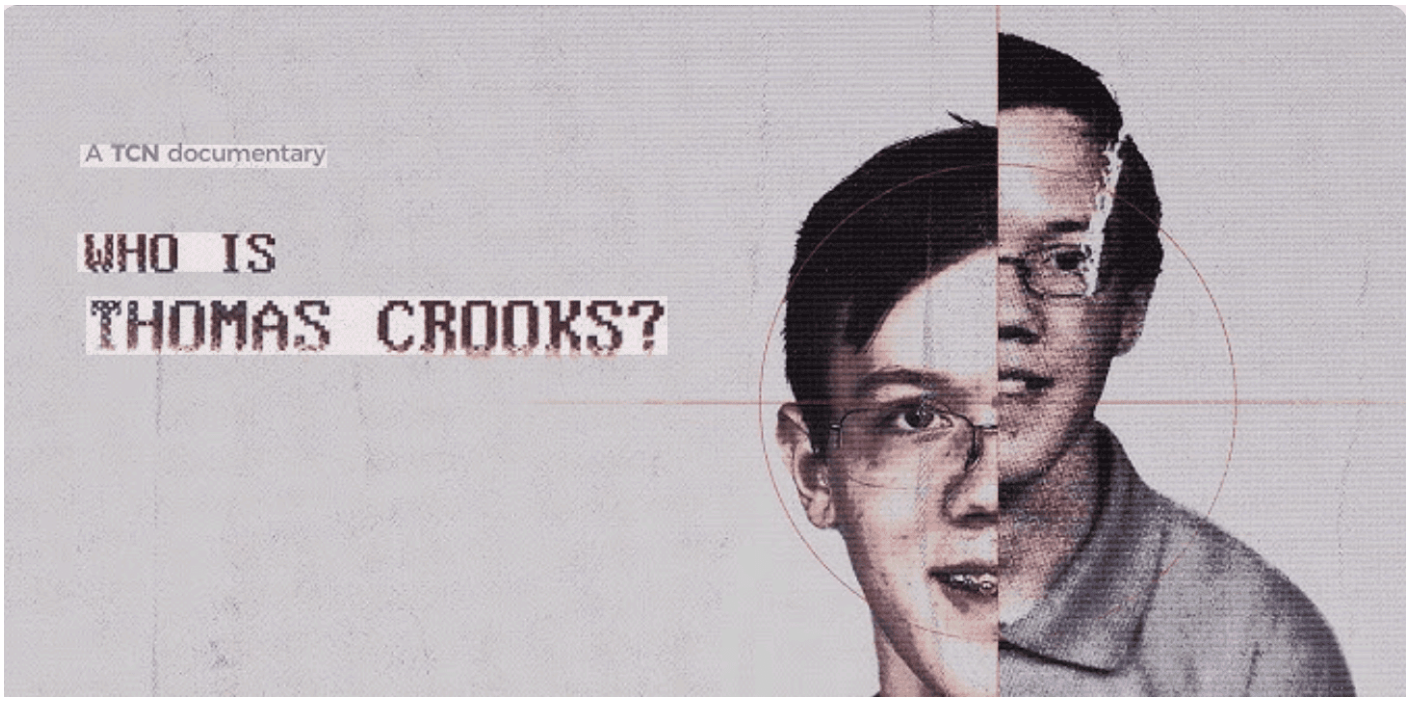
Tucker missed the real point, and the FBI continues to gaslight.



> Two days ago, Tucker Carlson released a thirty-minute video accusing the Federal Bureau of Investigation (**FBI**) of lying to the American people about the assassination attempt on President Donald Trump and reporting "that day Thomas Crooks came within a quarter inch of destroying this country and, yet, a year and a half later we still almost nothing about him or why he did it." ~ Ablechild

The FBI responds to Tucker Carlsons remarks: Patel posted to X on Friday

> *"Over 480 FBI employees were involved in the Thomas Crooks investigation. Employees conducted over 1,000 interviews, addressed over 2,000 public tips, analyzed data extracted from 13 seized digital devices, reviewed nearly 500,000 digital files, collected, processed, and synchronized hundreds of hours of video footage, analyzed financial activity from 10 different accounts, and examined data associated with 25 social media or online forum accounts.*
>
> *The FBI's investigation into Thomas Crooks identified and examined over 20 online accounts, data extracted from over a dozen electronic devices, examination of numerous financial accounts, and over 1,000 interviews and 2000 public tips."*

All of this over a **staged event**.

That is the point 'limited hangout' Tucker missed, and what he and the FBI are trying to gaslight us with.

Thomas Crooks did not shoot at trump at all. Trump had a fake blood bag and deployed it when shots were fired. This was a staged event. Yes someone may have been shot, but no bullets were aimed at Trump at all.

This is who shot one spectator, not the dead body on the roof alleged to be Thomas Crooks:

Trump Shooting 2nd Shooter

So the new discussions from Tucker 'controlled opposition' Carlson and responses from the FBI **are just more gaslighting to entrench the idea that someone actually shot at Trump.**

Why? Because if people understood that this was all faked, it would prove Trump is a liar, and an actor playing a part.

They do a lot of time distanced gaslighting of these events to try to steal the narrative back after some time has passed. Trying to correct anyones memory of past events back to their fake narrative.

It is our job to keep the focus on the truth. In this case; that no one shot at Trump at all.

Do you see any signs of a bullet injury?
